1 Group Information

1.1 General Information

We used Github as our version control service. The repository can be accessed at: <https://github.com/thinusn/Mini-Project-Requirements-Group-1B>

1.2 Group members

- 13033922 Elzahn Botha
- 12223426 Estian Rosslee
- 13025105 Jaco-Louis Kruger
- 13073878 Christopher Arajo
- 13093500 Paul Engelke
- 13028741 Frikkie Snyman
- 13019602 Thinus Naude

1.3 Contributions to project

1.3.1 Participation

Estian Rosslee (12223426) only attended the two 1-hour meetings we had, **he did not do any of the work presented in this document**. All other members of the group participated fully towards completing the project.

1.3.2 Who did what

- Planning: Everyone
- Use case prioritization: Everyone
- Services contracts: Jaco-Louis Kruger, Daniel Arajo, Thinus Naude, Paul Engelke and Frikkie Snyman
- Required functionality: Jaco-Louis Kruger and Thinus Naude
- Process specifications: Elzahn Botha, Daniel Arajo, Paul Engelke
- Domain Model: Frikkie Snyman
- LaTeX: Thinus Naude

1.3.3 Github contribution

IMAGE OF githubCommits

Figure 1: Github pushes for project.

2 Functional requirements and application design

2.1 Use case prioritization

2.1.1 Critical

A use case which is absolutely essential

- Create, Read/View/Get, Delete and Update of BuzzSpace
- Create, Read/View/Get, Delete and Update of Thread
- Create, Read/View/Get, Delete and Update of Thread Posts
- Authentication

2.1.2 Important

The system would still be useful without some of the important use cases, but the client would get quantifiably less value from the system.

- User (profiles and actions)
- User Communication (Email Templates)
- Tagging

2.1.3 Nice-To-Have

Its a requirement but the value to the client is insignificant.

- Plagiarism checker
- Netiquette checker

2.2 Services contracts

2.2.1 Analytics

IMAGE OF AnalyticsSC

Figure 2: Analytics services contracts.

2.2.2 Authentication

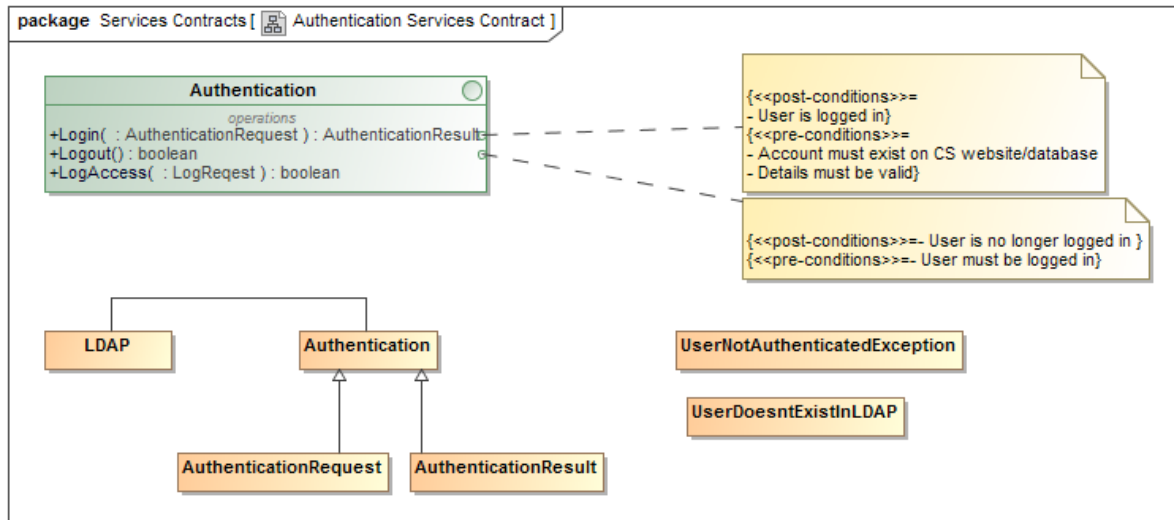

Figure 3: Authentication services contracts.

2.2.3 BuzzSpace

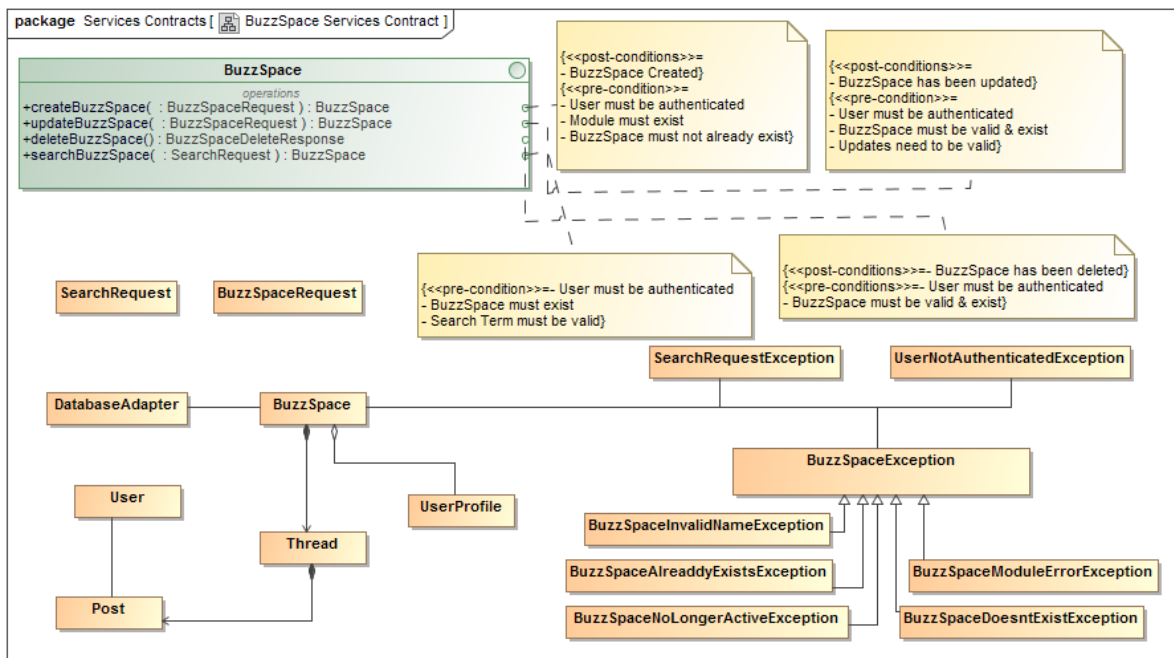

Figure 4: BuzzSpace services contracts.

2.2.4 Communication

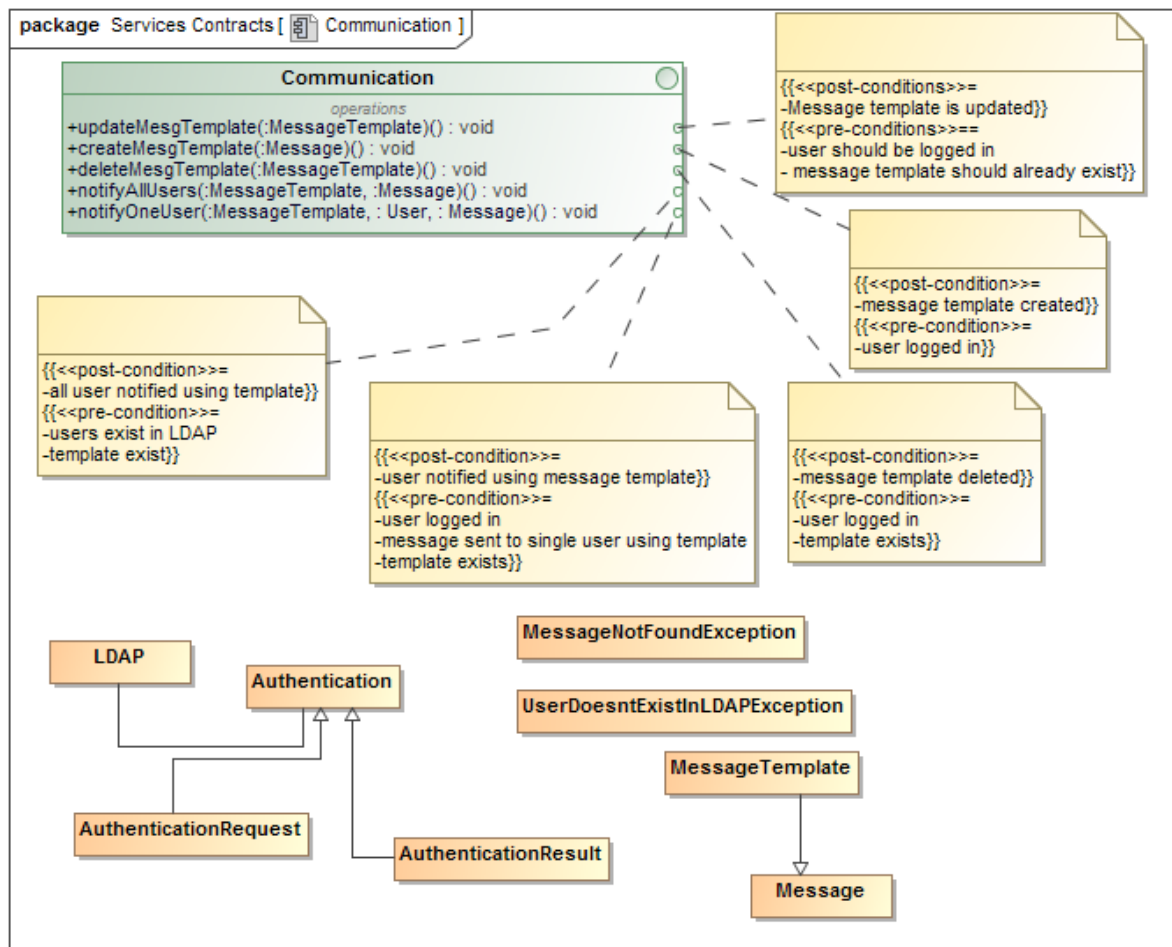

Figure 5: Communication services contracts.

2.2.5 Plagiarism / Netetiquette

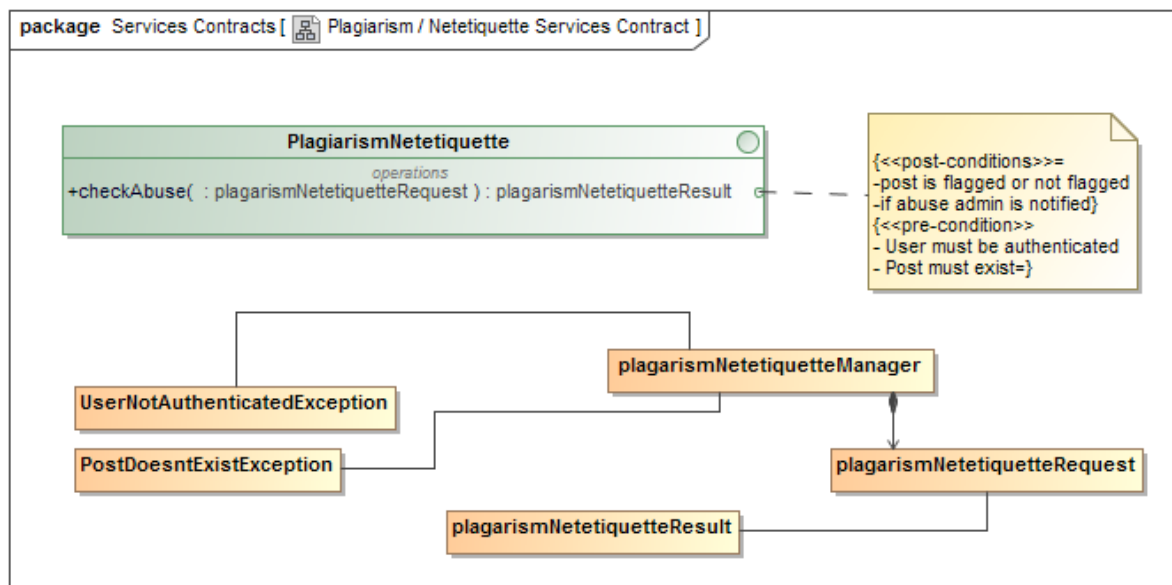

Figure 6: Plagiarism and Netetiquette services contracts.

2.2.6 Tagging

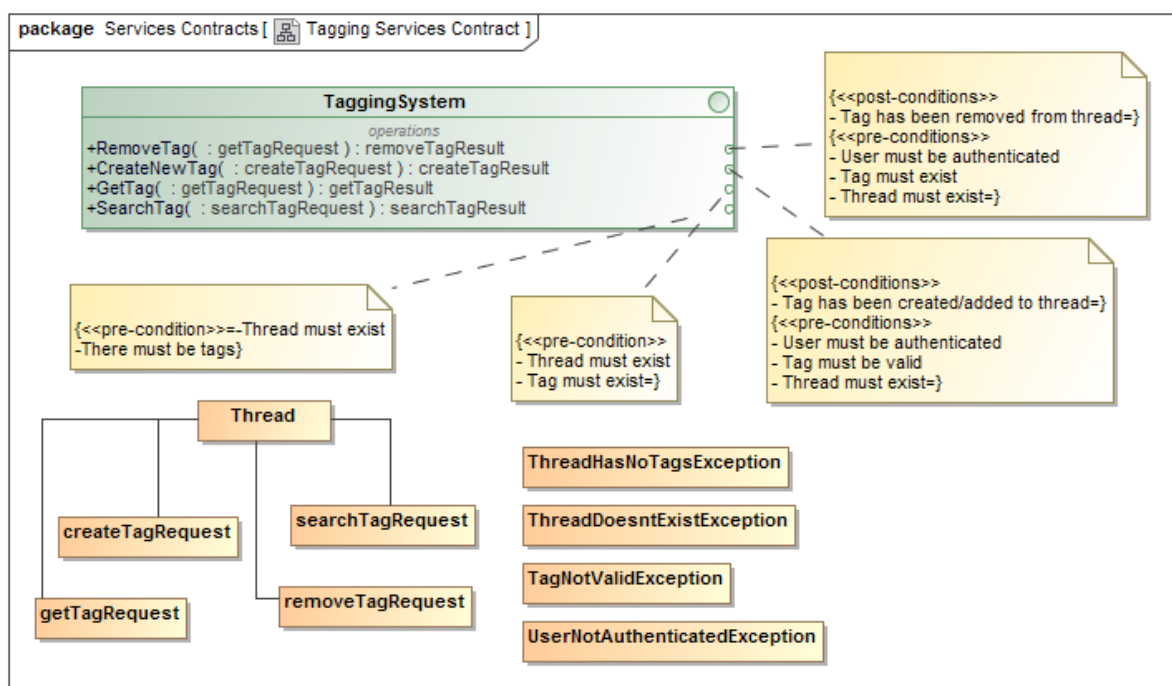

Figure 7: Tagging services contracts.

2.2.7 Thread

IMAGE OF ThreadSC

Figure 8: Tagging services contracts.

2.2.8 Thread Posts

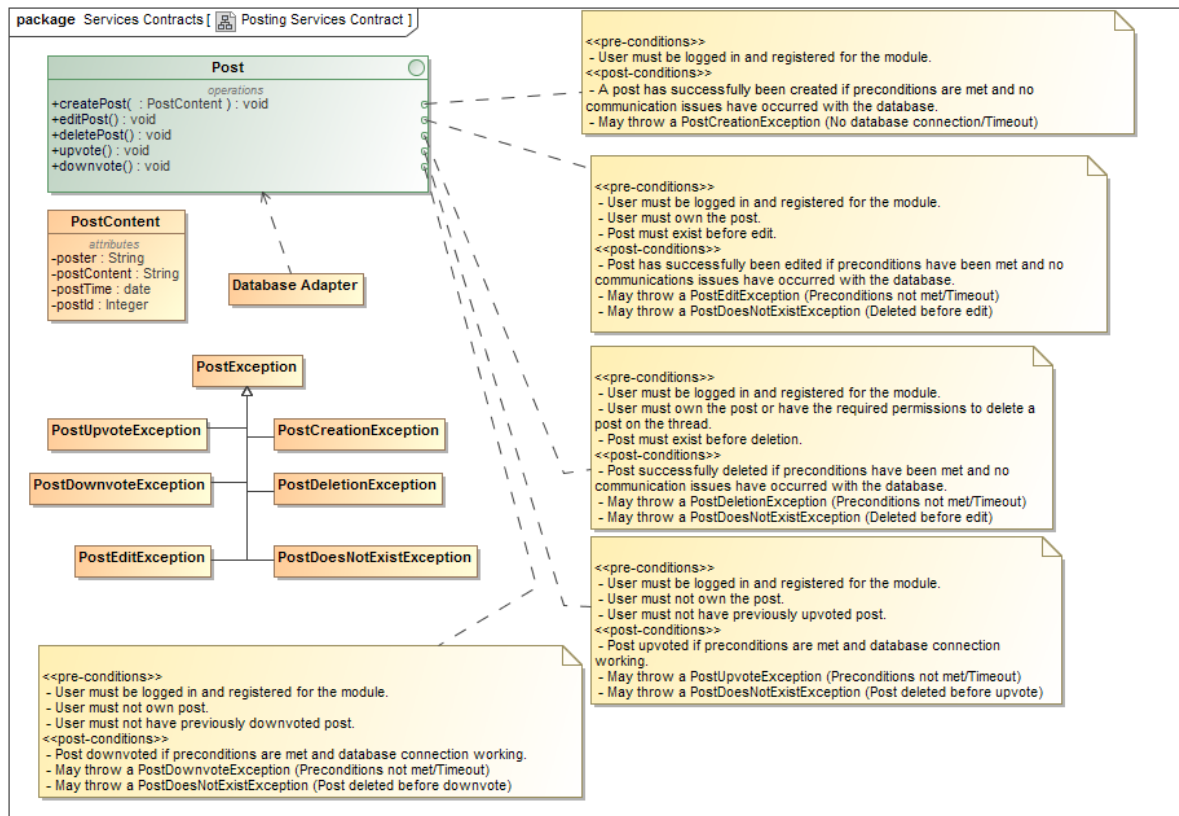

Figure 9: Thread Posts services contracts.

2.2.9 User

IMAGE OF UserSC

Figure 10: Tagging services contracts.

2.3 Required functionality

2.3.1 Analytics

Figure 11: Analytics sub system use case diagram.

2.3.2 Authentication

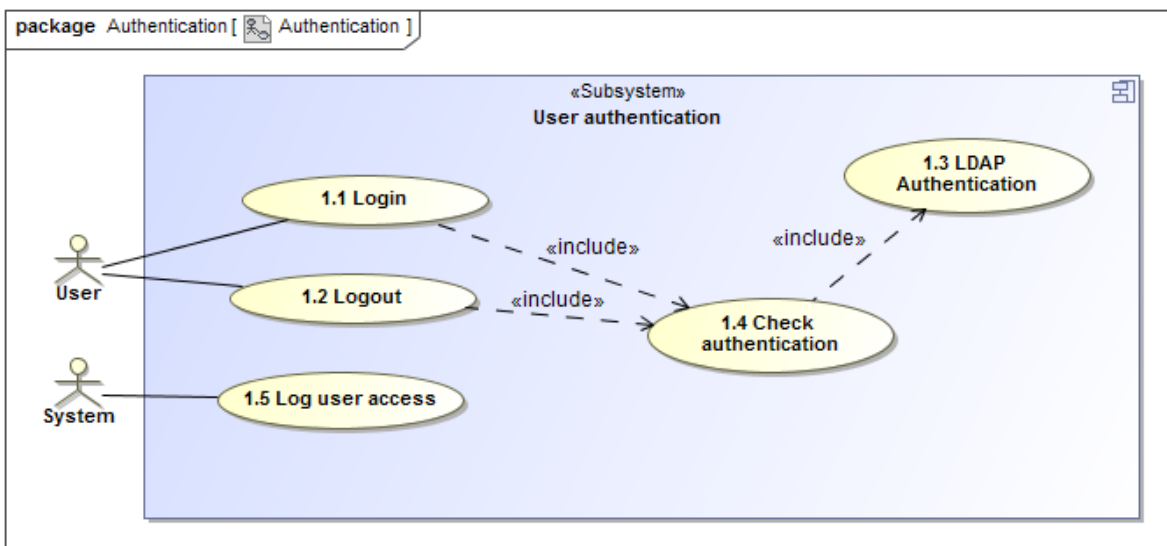

Figure 12: Authentication sub system use case diagram.

2.3.3 BuzzSpace

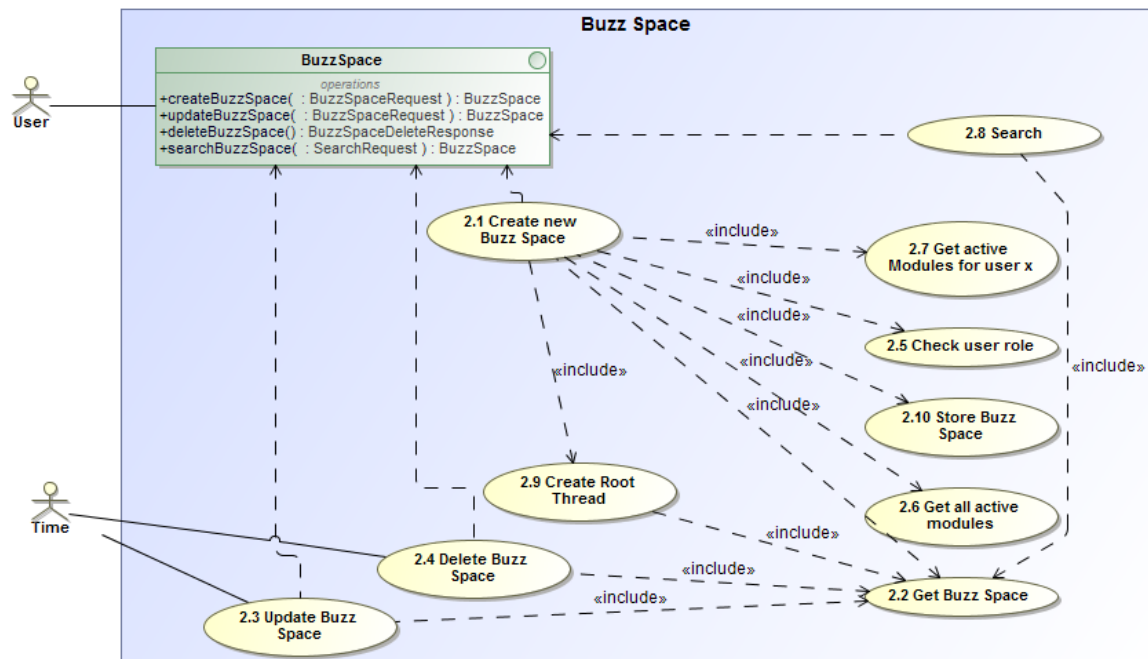

Figure 13: BuzzSpace sub system use case diagram.

2.3.4 Communication

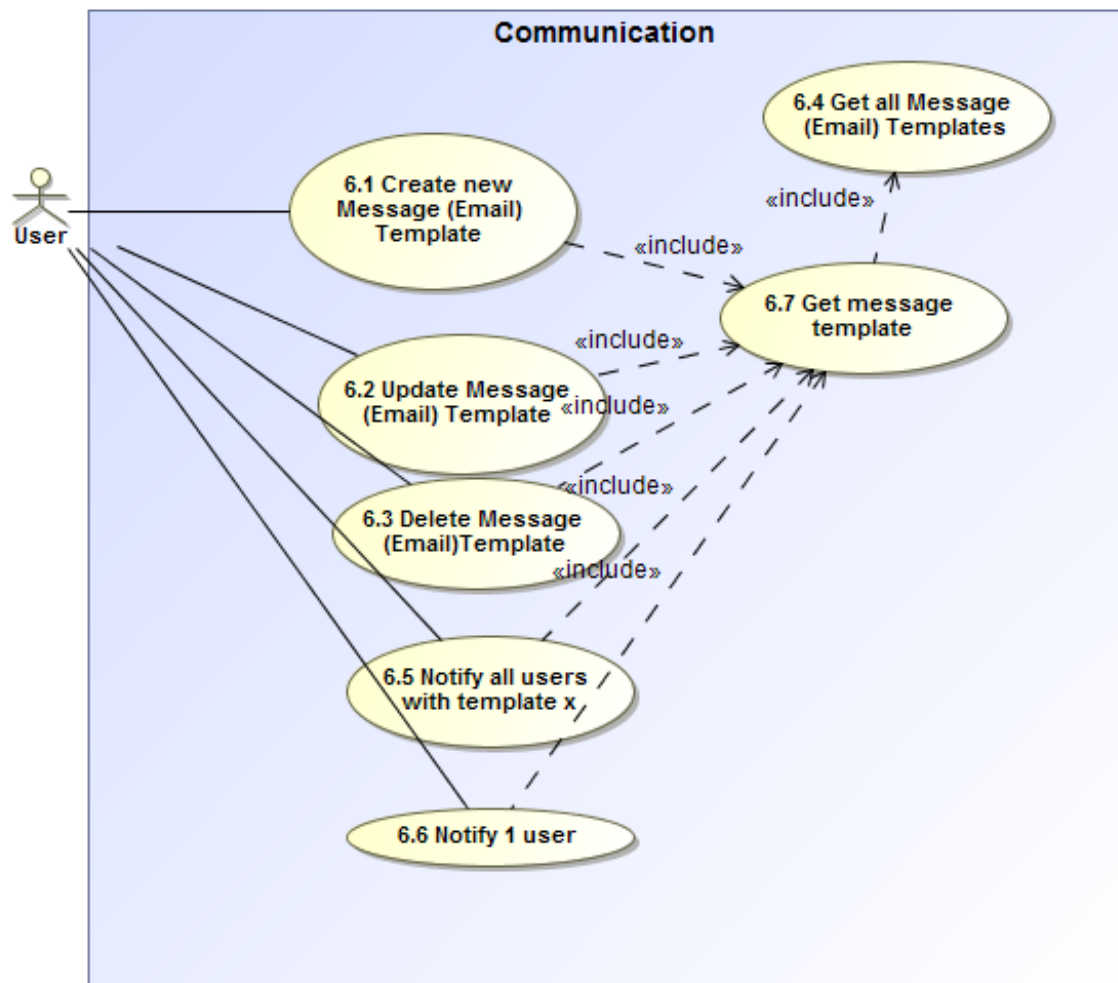

Figure 14: Communication sub system use case diagram.

2.3.5 Plagiarism / Netetiquette

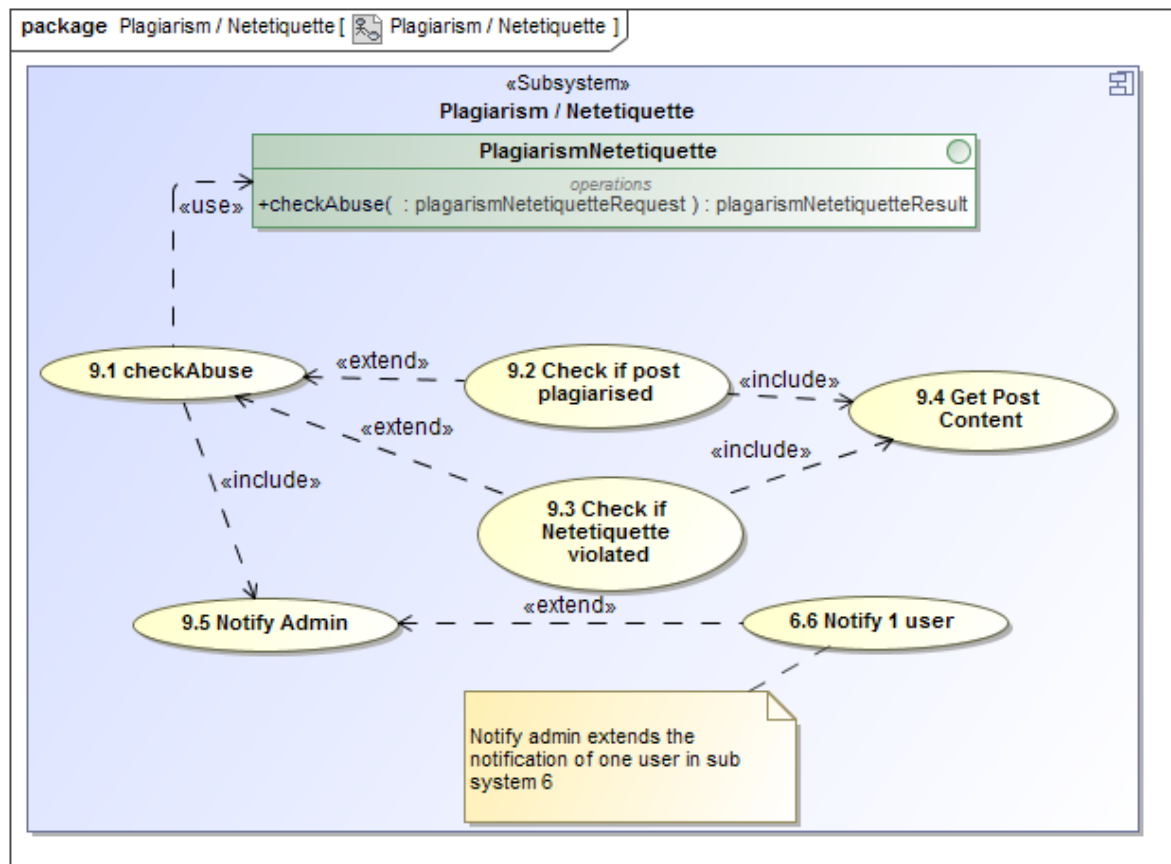

Figure 15: Plagiarism and Netetiquette sub system use case diagram.

2.3.6 Tagging

Figure 16: Tagging sub system use case diagram.

2.3.7 Thread

Figure 17: Tagging sub system use case diagram.

2.3.8 Thread Posts

Figure 18: Thread Posts sub system use case diagram.

2.3.9 User

Figure 19: Tagging sub system use case diagram.

2.4 Process specifications

2.4.1 Authentication

Figure 20: Login activity diagram.

Figure 21: Logout activity diagram.

2.4.2 BuzzSpace

Figure 22: Create Buzzspace activity diagram.

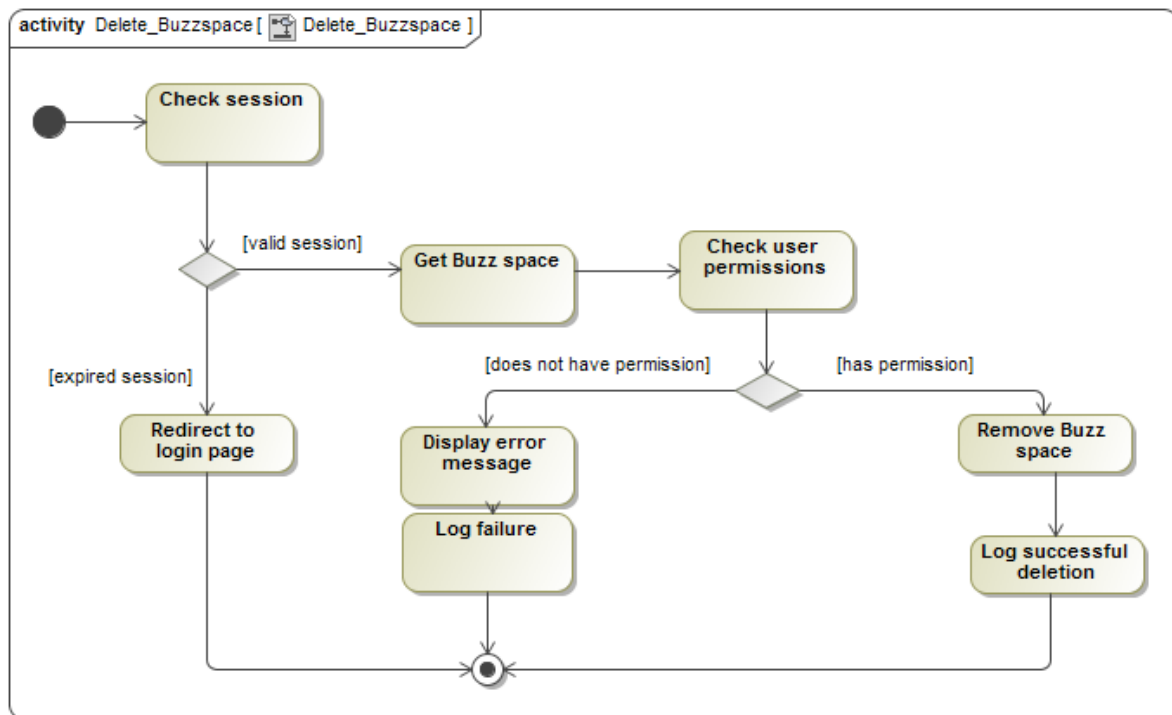

Figure 23: Delete Buzzspace activity diagram.

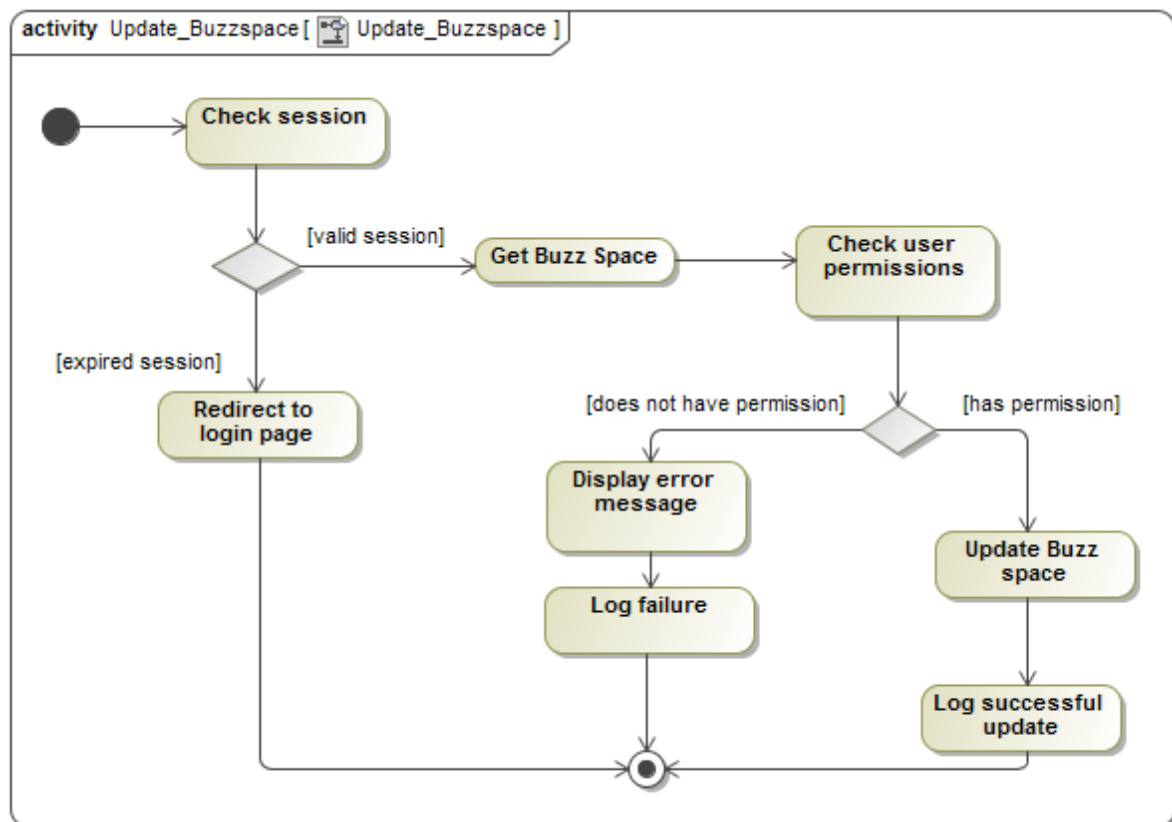

Figure 24: Update Buzzspace activity diagram.

2.4.3 Communication

Figure 25: Create Template activity diagram.

Figure 26: Delete Template activity diagram.

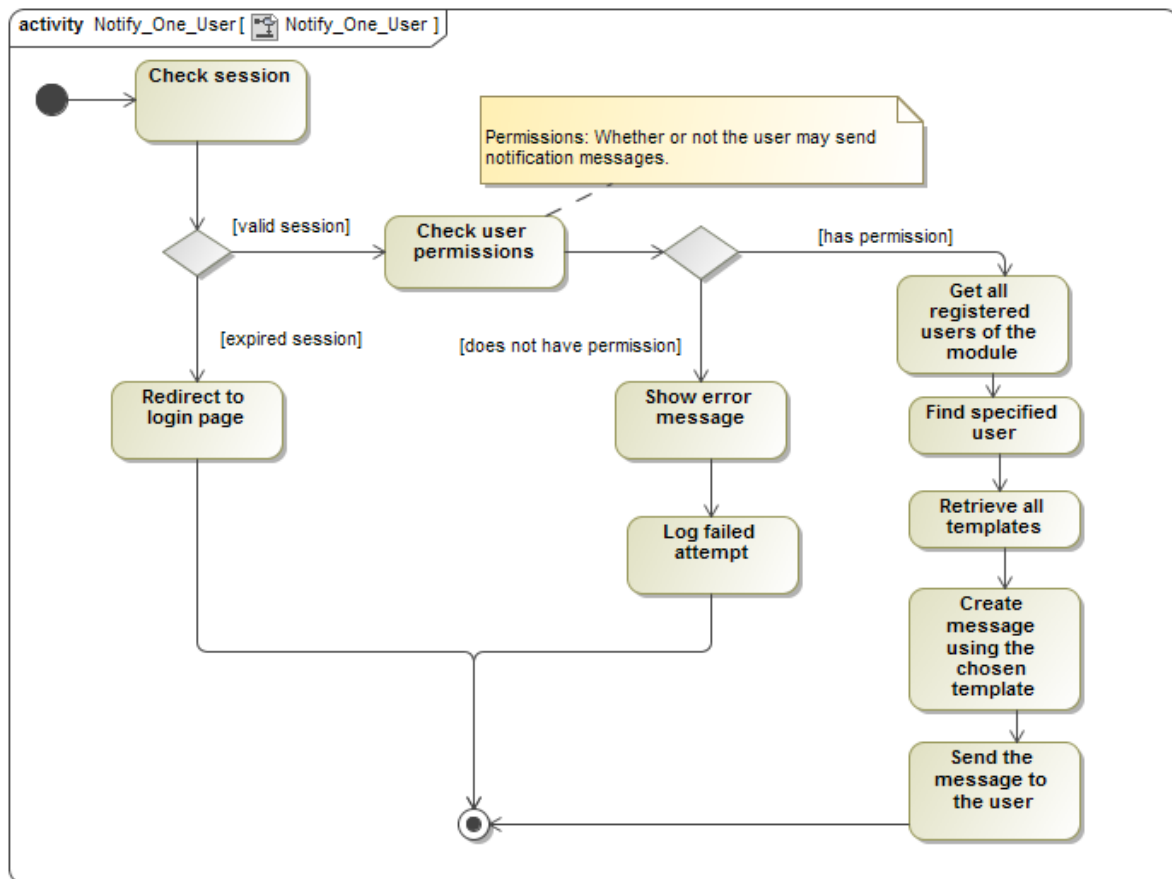

Figure 27: Notify One User activity diagram.

Figure 28: Notify Users activity diagram.

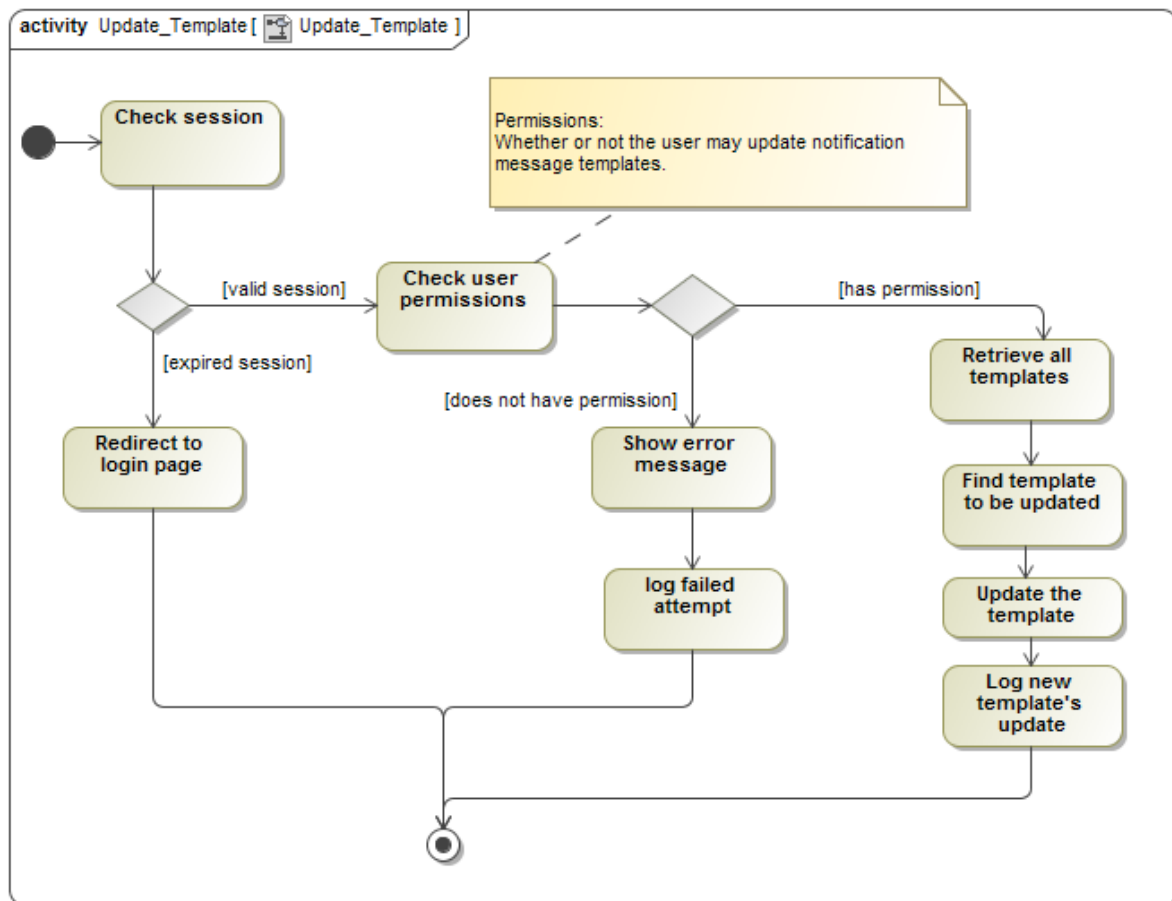

Figure 29: Update Template activity diagram.

2.4.4 Tagging

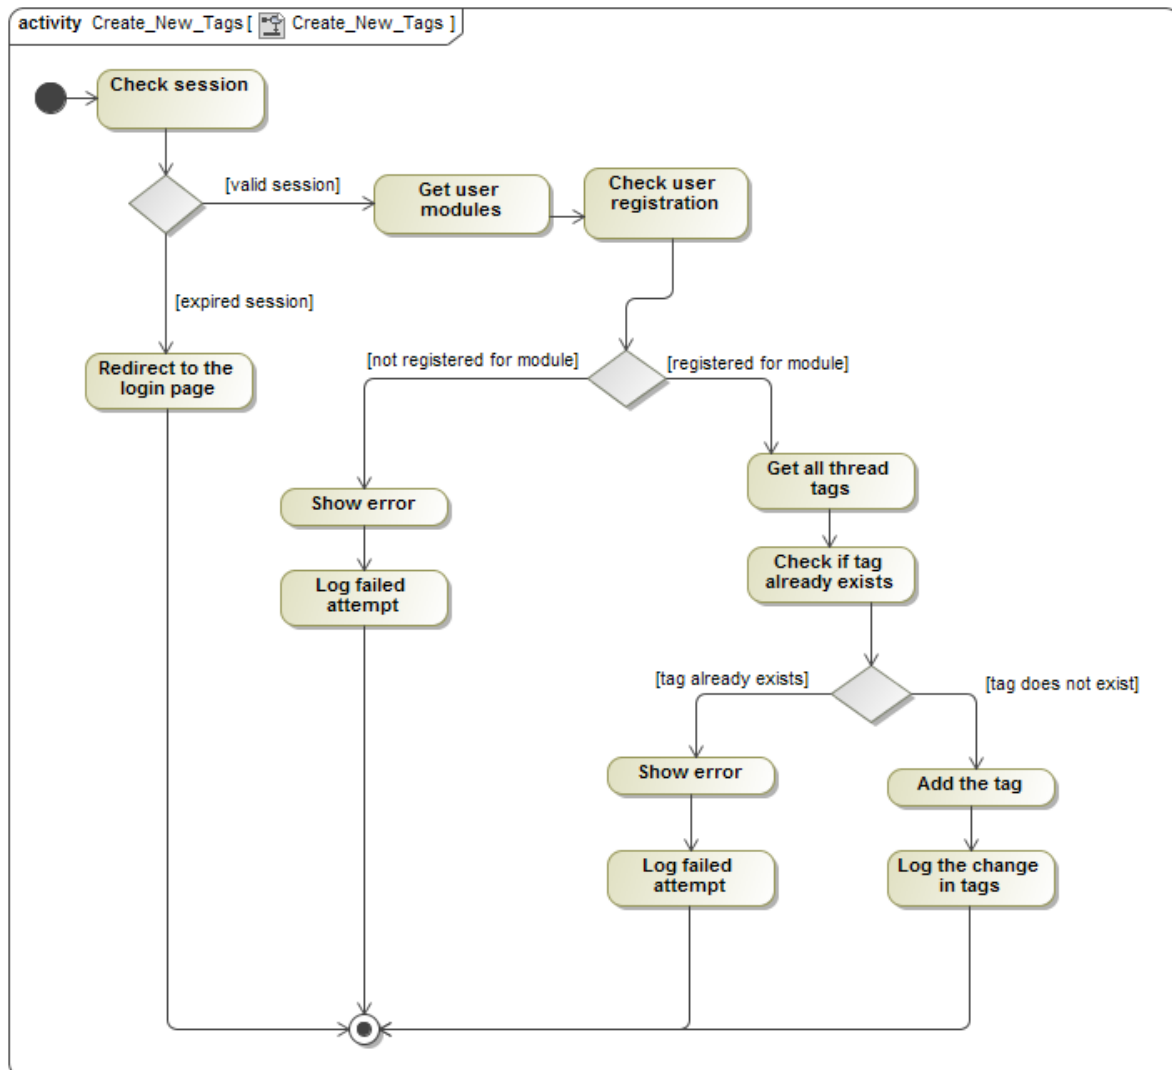

Figure 30: Create New Tags activity diagram.

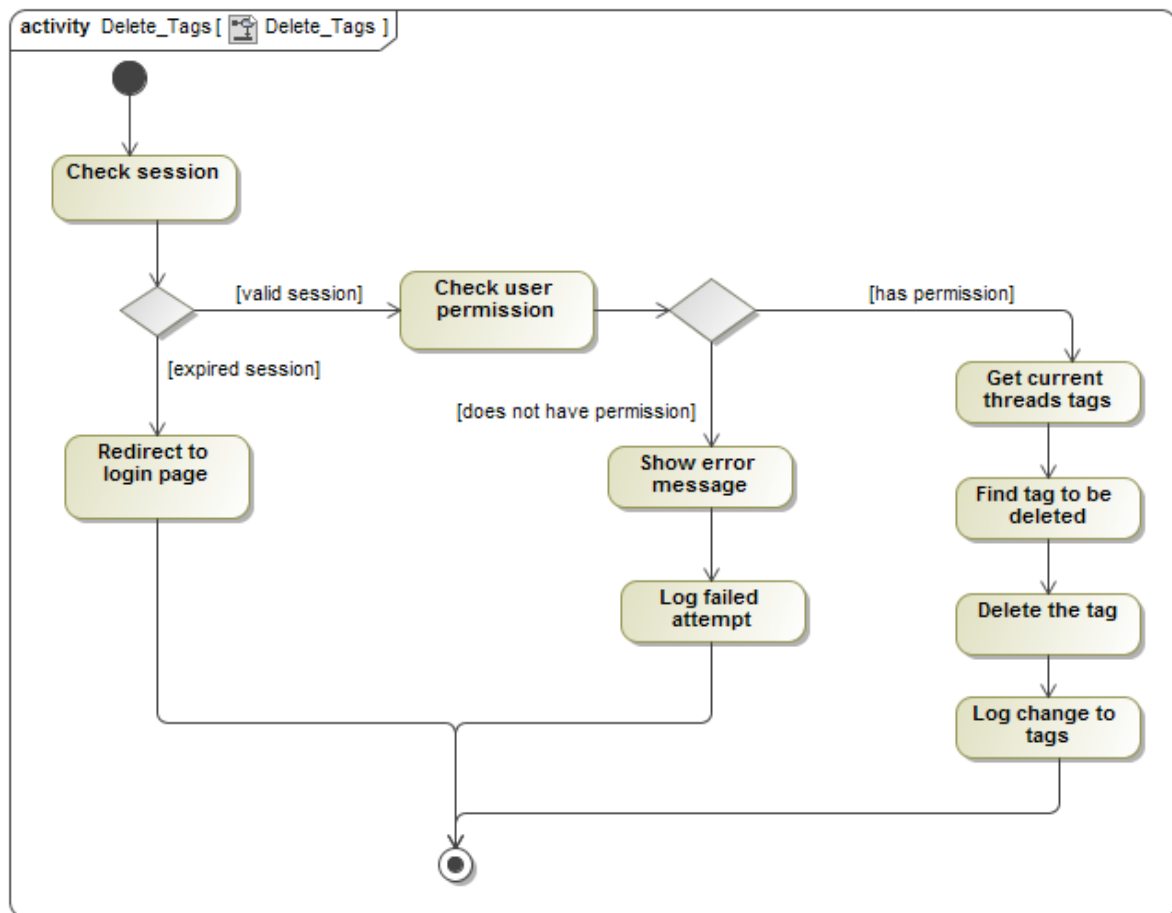

Figure 31: Delete Tags activity diagram.

Figure 32: Search Tags activity diagram.

2.4.5 Thread

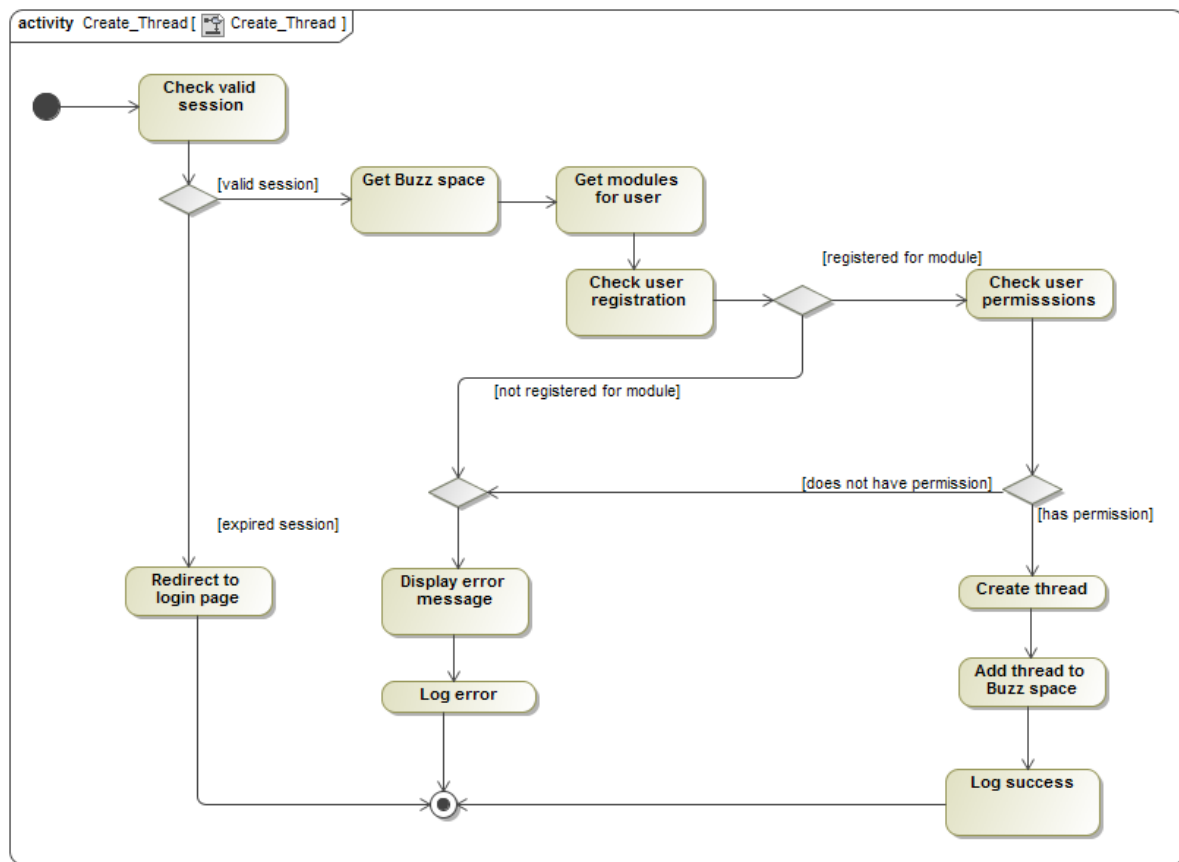

Figure 33: Create thread activity diagram.

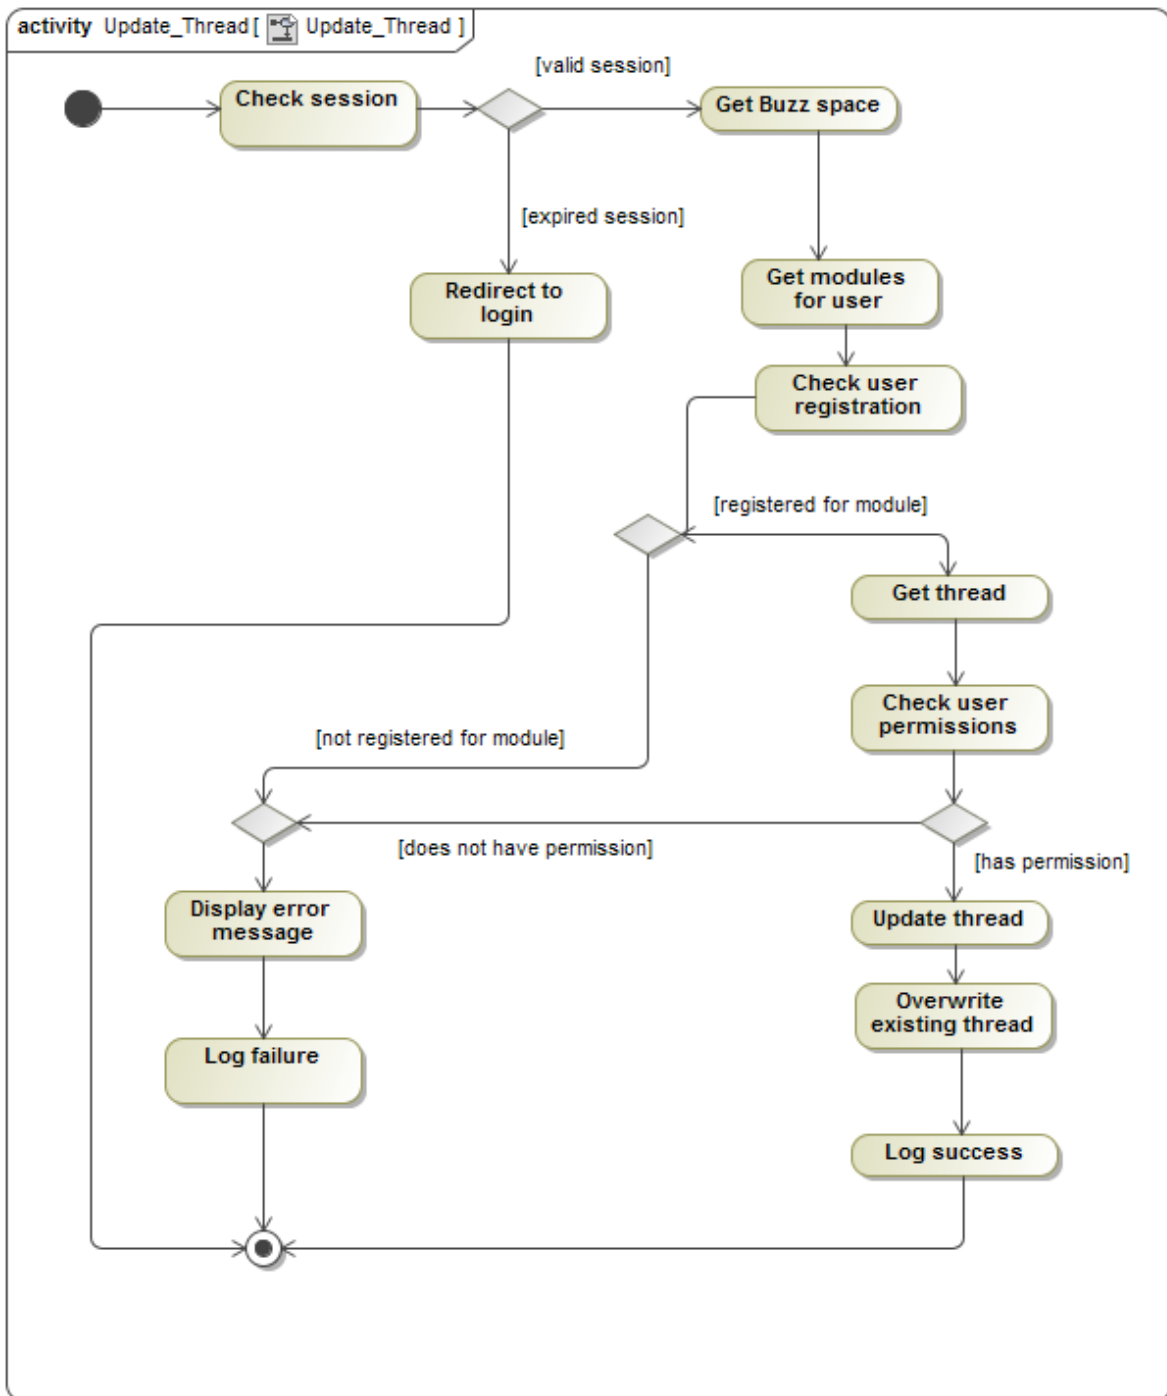

Figure 34: Update thread activity diagram.

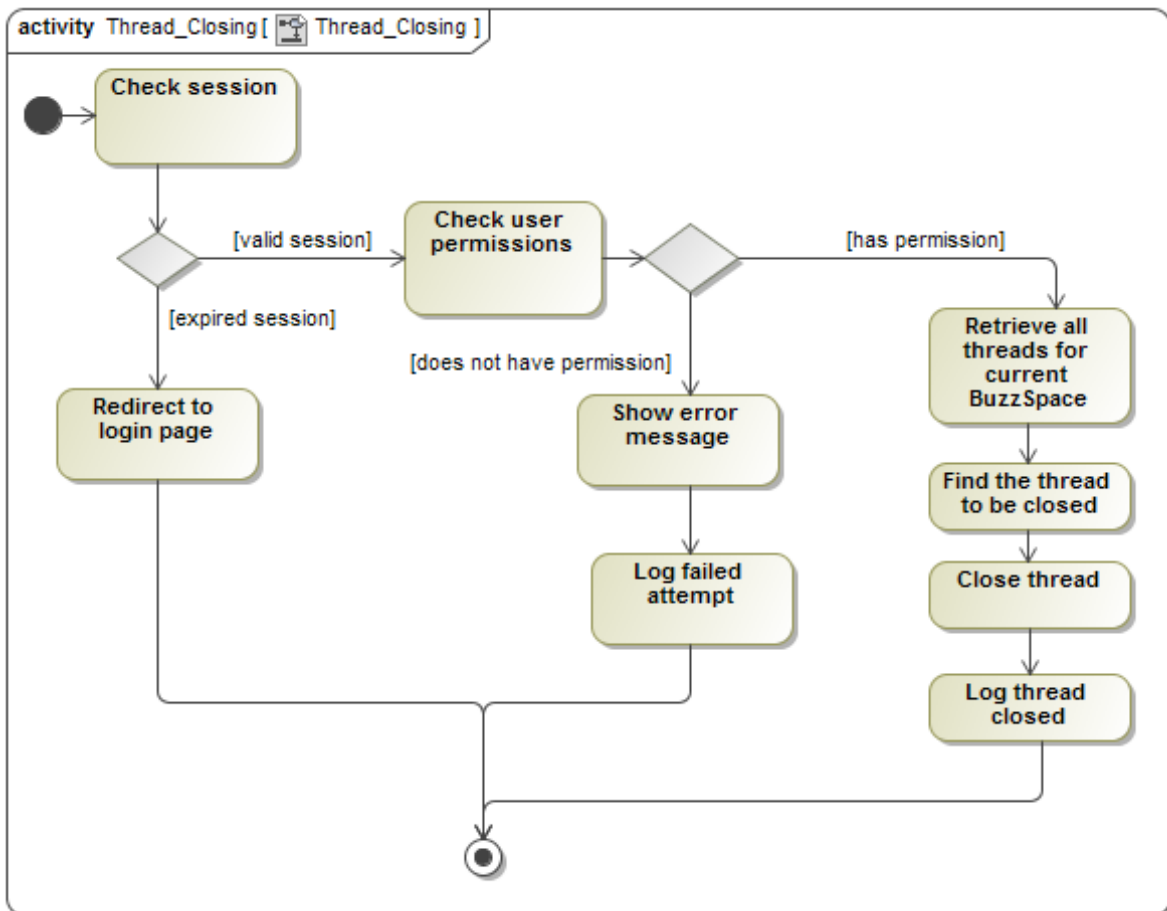

Figure 35: Close thread diagram.

2.4.6 Thread posts

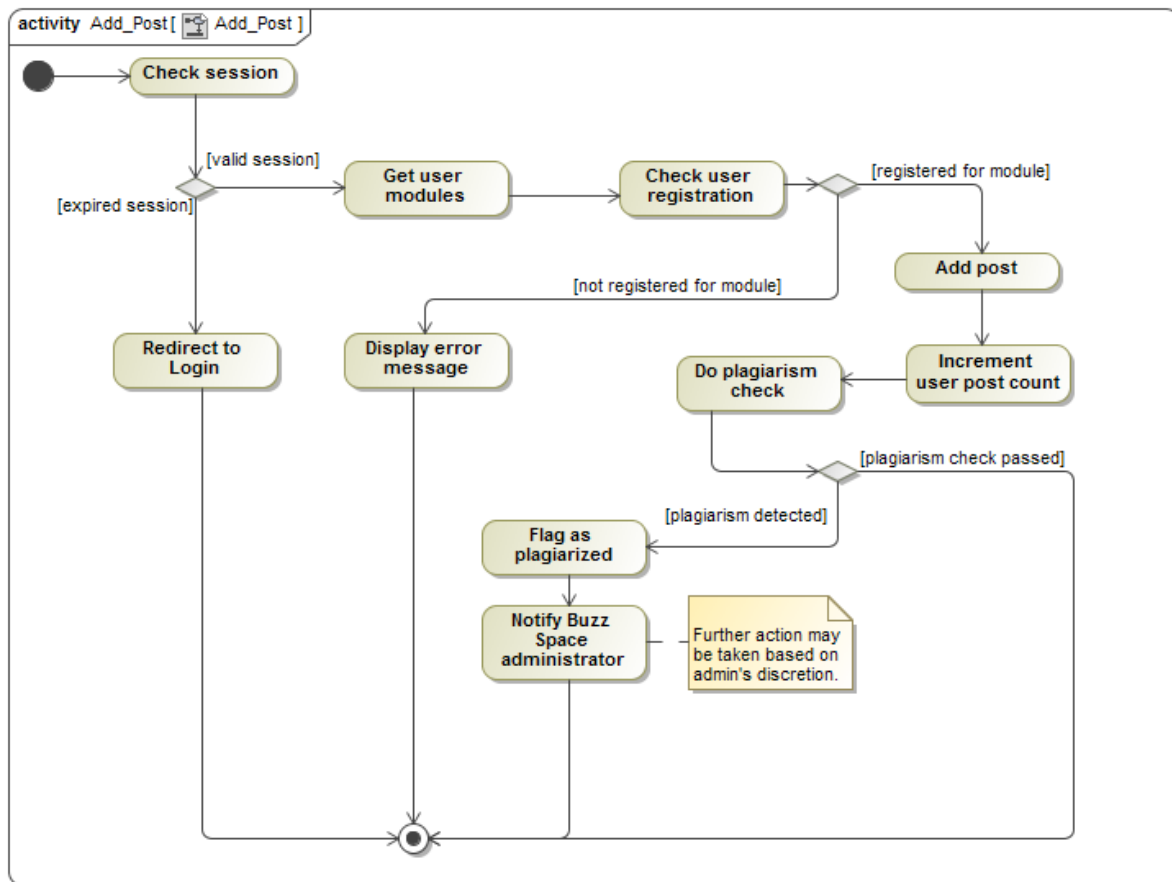

Figure 36: Add post to thread activity diagram.

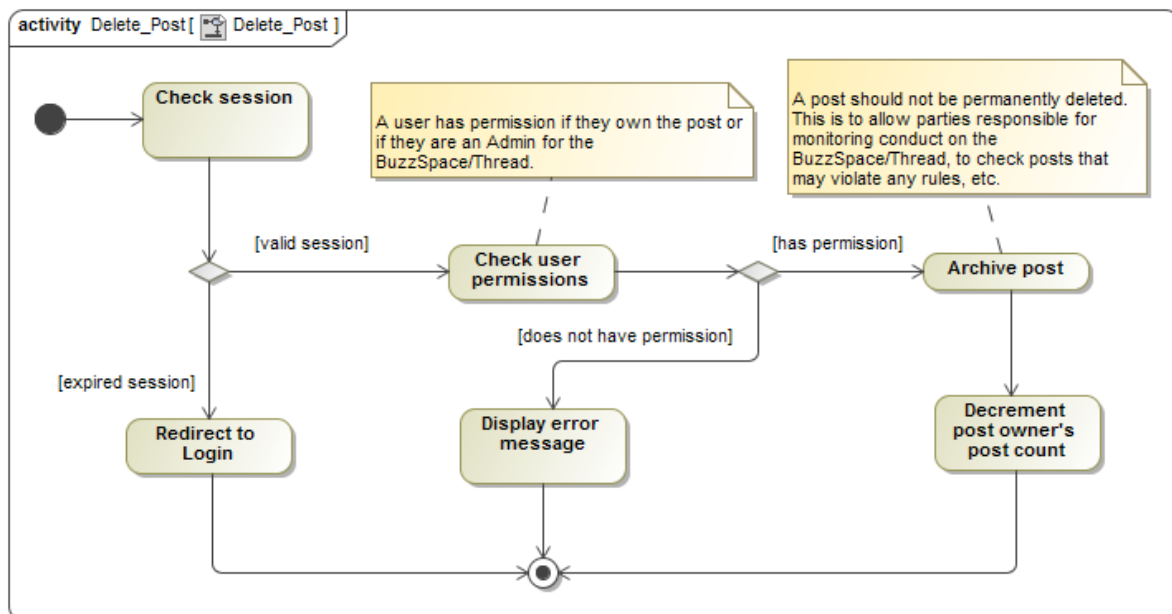

Figure 37: Delete thread post activity diagram.

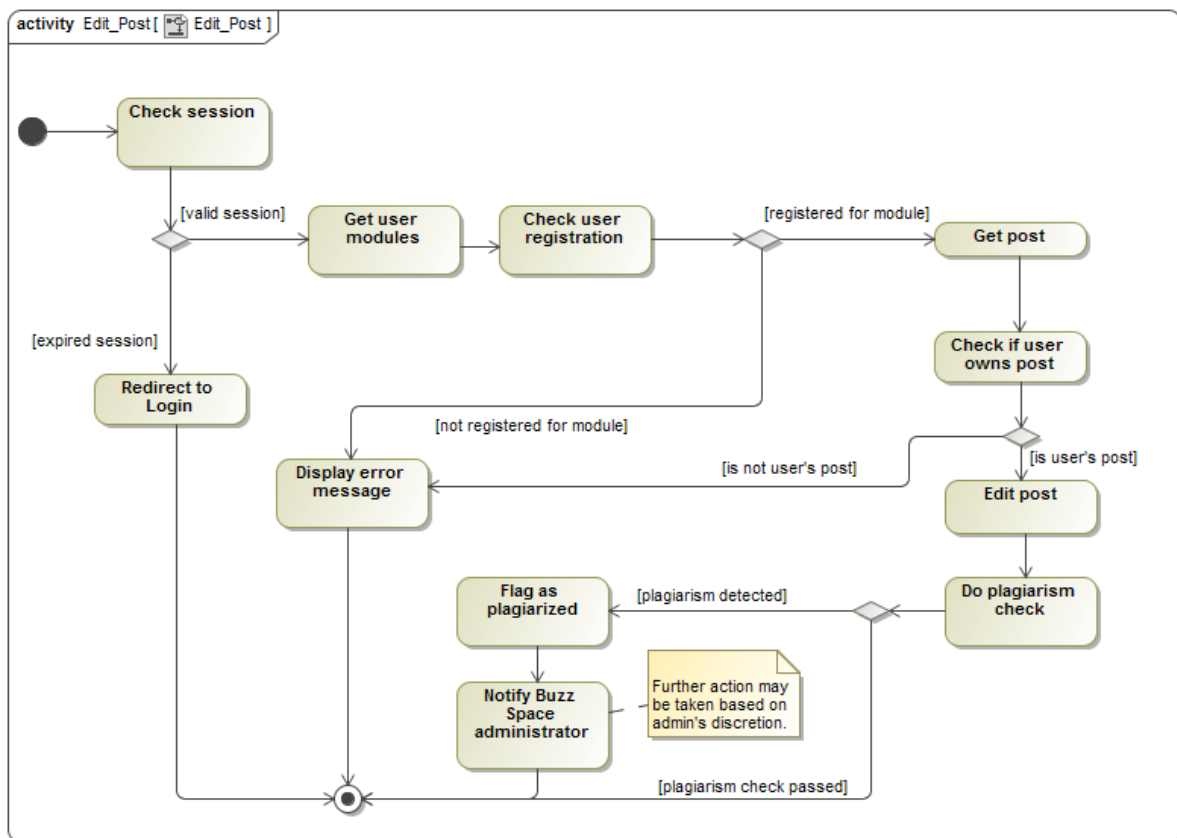

Figure 38: Edit thread post activity diagram.

Figure 39: Vote for post activity diagram.

2.5 Domain Model

Figure 40: Domain model for the discussion board.
